

Dear Admission committee,

My name is Nshimiyumukiza Thierry, a prospectus applying to your college to undertake my undergraduate studies. I do solemnly swear that I have no access to financial resources and funding to complete the Standardized test Scores as required by the Admission requirements of GIST College. However, I do attest that I completed my education in English language as a medium of instruction. A letter in this cause issued from my School has been attached with this Affidavit affirming to that fact.

On the contrary, the huge financial burden that comes with completing the Tests in addition to limited financial resources from my family is a big drawback for me to take these tests and hence would appreciate it if I am granted a waiver. My family is mainly subsistence-based and unbanked hence very difficult for me to meet the toll of finance required for completing the required tests. In addition to that, being a first generation school going child is a challenge of its own as Education is not taken seriously as a necessity thus I would appreciate all the interventions that can be made by the admissions team to assess my case.

I hope my affidavit assists in completing the admission requirements and my requests there are fulfilled. Thank you for taking time to review my documents and look forward to your kind consideration.

Yours faithfully,

Nshimiyumukiza Thierry.
